

TUBE & PIPE

管道技術 Technology

www.read-tpt.com

Media Pack 2025

Tube & Pipe Technology was the first magazine of Intras to be published, in 1988. Since then, this six times per year publication has gone from strength to strength and is one of the most widely recognised magazines in the tube and pipe industry.

With a worldwide readership, *TPT* is the go-to publication for machinery and equipment producers, manufacturers, suppliers and users around the world.

Engaging editorial, a rapidly expanding social media coverage, worldwide distribution and eye-catching advertising all combine to make *TPT* a leader in its respective field.

We pride ourselves on serving our readers and advertisers alike with both excellent customer service and providing further opportunities to expand their brands in our magazines.

We also offer a number of bespoke marketing services for companies within the wire and cable and tube and pipe industries. From website creation and re-designs to social media engagement, we embrace our reputation at the world's largest multimedia company in the industries we serve. To discuss any of these options, contact David Bell at David@intras.co.uk or on +44 1926 334137

WHAT OUR READERS AND ADVERTISERS SAY

"We highly appreciate the ongoing collaboration with Intras Ltd, which supports us regularly with advertising and articles in *Tube & Pipe Technology* magazine, which is the leading magazine in the tube industry."

"*Tube & Pipe Technology* has provided us a really professional and well-known communication platform for our welded pipe mill over more than 30 years. TPT creates an opportunity for Chinese enterprises like us to know the international trends in the industry, which has been particularly useful when travel to trade events has been difficult in recent times."

"We've advertised in *Tube & Pipe Technology* and its sister publications for many years. Their publications provide an excellent environment for creating positive recognition, impressions, and awareness of our NDT systems for tube, bar and wire readers.

Editor Rory McBride is a pleasure to work with, always responsive and helpful, and our ad agency finds Jason Smith, sales director at Intras, outstanding."

"We appreciate the long-standing relationship and the good cooperation we have with *Tube & Pipe Technology* and the opportunity that they provide for us to communicate with the global industry."

"Our partnership with *Tube & Pipe Technology* over the years has enabled us to grow our profile and, therefore, our business. Thanks to the publication's international readership it also enables our company news and marketing activities to reach our global customer base."
